The Client may amend or supplement these elements depending on the possibilities offered by MSE. These changes will take effect immediately unless specified otherwise by MSE.
 - e. The Client is solely responsible for providing the information and documents required for activating the OBUs, and for any subsequent modifications affecting them. MSE may request that the Client produce any necessary documents requested by the Toll Chargers. In this case, the Application or any other request by the Client concerned will not be processed by MSE until the requested documents are received.
 - f. The Client is responsible for the accuracy of the data stored in the OBU. In case of any inaccuracies, the Client is solely responsibility for the financial and/or criminal consequences. The Client must verify and manually input into the OBU, where necessary, the weight category and category of number of axles in the tractor/trailer before using any road within the Acceptance Network.
 - g. Except for the invoicing and collection of the Tolls, which are the responsibility of MSE or any Service Provider, travel on the Acceptance Network and the calculation of Tolls are exclusively covered by the contractual relationships between the Client, MSE and the Toll Charger concerned. The OBU is used to collect the Client Transactions charged by each Toll Charger and to invoice the Client for them.

This invoicing is carried out by MSE in compliance with the principles determined by the Toll Charger, i.e. either in the name and on behalf of the Toll Charger or solely on its own behalf. The Toll rates and specific terms and conditions are freely defined by each Toll Charger in compliance with the regulations in force.

- h. The Client must comply with each of the obligations imposed under the mandatory rules set by the Toll Chargers, particularly in their Sector Declaration.
- i. The terms of this Clause constitute a fundamental and decisive element of the undertaking given by MSE in the context of this Agreement.

5.3. **EETS Device.** In the event Client requests an EETS device, the following additional terms and conditions will apply until such time as Client opts out from using the OBU:

- a. **Responsibilities.** The Client is prohibited from leasing or selling the OBU to another party under penalty of the immediate termination of the Agreement. The Client has custody of the OBU and uses it under its sole responsibility. At any time during the performance of the Agreement, and in particular if the OBU is placed on a cancelled, fraud or infringement list, MSE may take the initiative to withdraw or, if necessary, replace one or more OBUs, or order a motorway operator or any third party of its choice to proceed to do so. Each OBU is delivered with, and should therefore be returned with, a working cigarette lighter cable and holder with 4 suction cups. In case the OBU, cable and holder with suction cups are not returned in good order, costs are being charged to the Client.
- b. **Operation; Compliance.** The correct operation of the OBU is subject to compliance with the terms of the User Guide. The Client is reminded that the OBU must be powered in compliance with the conditions of the User Guide and in all cases continuously on the Networks. The OBU will function until it is cancelled or replaced by MSE. An OBU shall only be in active status and valid, and its holder is only entitled to claim active status for EETS Service and the benefits associated therewith when used properly and in accordance with the User Guide and these Terms and Conditions. Use of the OBU on the Networks implies compliance with the applicable obligations, even if they arise from third parties, including Service Providers and/or Toll Chargers. MSE places useful information in the Client Portal for information only. It is the responsibility of the Client to ensure all information is read, understood and complied with, and that all Client information is kept correct, up to date, and complete.
- c. **Processing of Claims.** Information concerning the technical status of the OBU is only available for 6 months from the date of the journey. Any request to receive this information must be submitted to MSE within 20 (twenty) working days before the expiry of this period. Failing this, the request will not be processed.

- d. **Malfunction; Withdrawal or Replacement of an OBU.** In the absence of a valid OBU, or in the event of a malfunction, the Client must follow the procedure stipulated by MSE for the relevant Network. If the defect is attributable to the Client, all replacement costs will be invoiced to the Client by MSE, in accordance with the Standard Price List. The replacement of the OBU by MSE will be free of charge throughout the entire period of its lease in the event of a defect attributable to the OBU or in the event of malfunction of the battery.

MSE may also withdraw and, where applicable, replace the OBU for any technical reasons, including but not limited to the following cases: (i) technological upgrade; (ii) malfunction; (iii) life end of battery; (iv) change of Vehicle or change in the characteristics of the Heavy Goods Vehicle with which the OBU is associated. The Client must return the relevant OBU(s) in all such cases, upon request.

- e. **OBU Allocation.** The Client is reminded that each Heavy Goods Vehicle OBU must be allocated to a single vehicle with a valid license plate number to be active and operational under EETS Service, and that this condition is imposed by the regulations in force in certain countries, under penalty of fines and the impounding of the Vehicle, or by the Toll Chargers. Any non-compliant use will automatically result in the loss of the warranty related to the operation of the OBU and the associated EETS Service.

MSE grants the Client the option to re-allocate a OBU making it possible for another Vehicle in its fleet to use the OBU, provided the reallocation is concluded electronically using the OBU management module within The Client Portal in accordance with the procedures stipulated by MSE. MSE reserves the rights to ask the Client for any unused OBUs to be returned to MSE at its sole discretion.

- f. **OBU Cancellation.** The Client must cancel the OBU upon becoming aware of its theft or loss ("**OBU Cancellation**"). In order to do an OBU Cancellation, Client must notify Us electronically by using the Client Portal in accordance with the procedure stipulated for such purpose.

The Client will receive electronic confirmation for a successful OBU Cancellation, stipulating the date the request was processed. The OBU Cancellation will be effective, as far as the Client is concerned, upon receipt of such electronic confirmation.

Forty-Eight (48) hours after the OBU Cancellation or termination, the Client will no longer be required to pay the amount of any transactions that may be recorded. The costs of the OBU Cancellation and, where applicable, the fees payable in respect of any OBU which is not returned, will be invoiced to the Client by MSE. MSE may not be held liable for the consequences of any OBU Cancellation made by a person using the identity of the Client or the name of the Client and who is not authorized to represent the Client.

- g. **New OBU.** At the request of the Client, a new OBU may be delivered at the stipulated address. Its activation will be invoiced by MSE in accordance with the Standard Price List.
- h. **OBU Returns.** The OBU return process, upon any OBU Cancellation or termination of the Agreement, whether or not the Client is the Party to whom the termination is attributable, or for any other reasons, must be initiated electronically by using the Client Portal by following the steps stipulated in the return workflow, upon completion of which, the Client will receive a confirmation. Following confirmation from Us, the Client must return any and all OBUs in their possession, along with all OBU cables and OBU holder(s) without delay, exclusively by certified mail return receipt requested, to MSE at the address specified by US in Client Portal, using the protective packaging that was provided by MSE at the time the OBU was provided to Client. The OBUs must be returned within fifteen (15) days from the effective date of the termination.

If the Client recovers an OBU reported stolen or lost, this OBU must be sent to MSE by certified mail, return receipt requested. Upon receipt of the previously reported stolen or lost OBU, provided the OBU is recovered within a period of 6 months from the day it was

reported to be stolen or lost, MSE will inspect the condition of the recovered OBU and will refund the stolen or lost fee charged to the Client, if any, after deducting the amount attributed to any damage.

Amounts payable in respect of tolls and taxes for trips validated using misused OBUs will be claimed independently of any criminal proceedings and any action for damages which MSE reserves the right to bring.

Should MSE need to have recourse to any legal proceedings to recover the OBU(s), the costs incurred pursuant to such legal proceedings will be payable by the Client. MSE will in addition be entitled to charge the Client a non-return fee in respect of any unreturned OBU in the event of a failure to return an OBU within thirty (30) days from the effective date of the termination.

The Client may return one or more OBUs at any time in their protective packaging, by certified mail, to MSE. In this case, MSE will stop issuing invoices and/or billing statements for the Services associated with the use of the OBU(s) at the end of the month during which MSE acknowledges receipt of the returned OBU(s).

The Client must refer to the Toll Charger Terms & Conditions to which it subscribed in order to ascertain the consequences of the return of the OBUs, and in particular the applicable conditions governing the refund of any fees paid or the invoicing of charges.

In any event, the price payable in connection with the rental or provision of the OBU, and in particular the price paid in connection with its personalization, packaging and shipping, cannot be reclaimed by the Client from MSE in the event of the return of the OBUs.

If MSE is obliged to carry out repairs and/or reconditioning because the OBU has been damaged (e.g. partial or total alteration, markings, etc.), the costs of these operations will be payable by the Client according to the Standard Price List.

- 5.4. **Austrian Tolls Services.** In the event Client requests Austrian Tolls Services, the following additional terms and conditions will apply until such time as Client opts out from Austrian Tolls Services:

 - e. Personal data collected by Us in the course of its provision of the Service (such as the name and address of the vehicle's owner and the Client) may be transmitted to the ASFINAG inspection authority when requested on the basis of fraud or malfunctions contributing to the total or partial failure to pay the toll, or in the context of random checks.
